

# Bridge IT Cloud Solutions

Seamless Migration | Enterprise Grade Management

☁ One partner for 20+ global cloud platforms – We simplify deployment, security, and cost optimization across your entire cloud ecosystem.

## Why Partner With Us?

- ✓ Certified Experts – 200+ cloud certifications across major platforms
- ✓ Unified Management – Single pane of glass for multi-cloud environments
- ✓ Cost Optimization – Save 30-50% on cloud spend with our audits
- ✓ Compliance Ready – HIPAA, GDPR, SOC2 across all deployments
- ✓ 24/7 Cloud Ops – SLA-backed support with 15-minute response

💡 "We speak cloud in every dialect."

## Supported Cloud Platforms

### Enterprise Cloud

- Microsoft Azure – Full-stack deployments & hybrid cloud
- AWS – EC2, S3, RDS with reserved instance optimization
- Google Cloud – AI/ML workloads & Kubernetes expertise
- Oracle Cloud – ERP migrations & database management

### Business Applications

- Microsoft 365 – Exchange, SharePoint & Teams deployment
- Google Workspace – Gmail to Meet migration services
- Salesforce Cloud – CRM integration & Lightning customization

## Secure Edge & CDN

- Cloudflare – DDoS protection & global acceleration
- VMware Cloud – Private cloud & SD-WAN solutions

## Global Infrastructure

- Alibaba Cloud – APAC market expansion
- Tencent Cloud – WeChat ecosystem integration
- IBM Cloud – Watson & legacy system modernization

## Storage & Backup

- Backblaze B2 – Cost-effective cold storage
- DigitalOcean – Developer-friendly block storage
- Linode – High-performance NVMe solutions

---

## Our Cloud Management Framework

- ◇ Assessment – 360° cloud readiness evaluation
- ◇ Migration – Zero-downtime transition planning
- ◇ Optimization – Right-sizing & auto-scaling
- ◇ Security – CSPM & continuous compliance
- ◇ Support – Dedicated cloud engineers

---

## Multi-Cloud Made Simple

- Single Invoice – Consolidated billing across providers
- Tiered Support – From basic monitoring to fully managed
- Compliance Toolkit – Pre-built policy templates
- Performance Dashboard – Real-time multi-cloud analytics
