

Bridge IT Infrastructure Solutions

Enterprise-Grade Foundations for Digital Business

Your Complete Infrastructure Partner

 From cabling to cloud - we design, deploy, and manage bulletproof infrastructure tailored to your business needs.

Why Our Infrastructure Expertise Matters

- ✓ End-to-End Ownership – Single vendor for all infrastructure layers
- ✓ Vendor-Agnostic Solutions – Best-fit technology selection
- ✓ Military-Grade Security – Built into every layer
- ✓ Future-Proof Design – Scalable for 5-10 year growth
- ✓ Tiered Support – From basic monitoring to fully managed

 *"Infrastructure should empower innovation, not constrain it."*

Core Infrastructure Solutions

Compute Infrastructure

- Bare Metal Servers: Dell PowerEdge, HPE ProLiant
- Virtualization: VMware, Hyper-V, KVM
- Containerization: Docker, Kubernetes orchestration
- Edge Computing: Micro data centers

Storage Solutions

- SAN/NAS: NetApp, Pure Storage
- Backup Appliances: Unitrends, Rubrik
- Cloud Storage Gateways: AWS Storage Gateway

Network Infrastructure

- Core Switching: Cisco Nexus, Arista
- SD-WAN: Silver Peak, VeloCloud
- Wireless: Aruba, Ruckus, UniFi
- Load Balancers: F5 BIG-IP, Citrix ADC

Security Infrastructure

- Next-Gen Firewalls: Palo Alto, Fortinet
- Zero Trust: Zscaler, Perimeter 81
- Network Access Control: Cisco ISE

Voice Infrastructure

- VoIP Systems: Cisco CUCM, Avaya
- Session Border Controllers: AudioCodes
- Contact Center: Amazon Connect

Specialized Infrastructure Services

- ◇ Data Center Design – Tier III/IV facility planning
- ◇ Cabling & Rack Optimization – Cat6A/OM4 fiber
- ◇ Hyperconverged Infrastructure – Nutanix, vSAN
- ◇ Disaster Recovery Sites – Hot/warm/cold solutions

Our Infrastructure Methodology

- Assessment – Current state analysis
- Design – Certified architecture planning
- Implementation – Phased deployment
- Management – Proactive optimization

Infrastructure Packages

| Solution | Best For | Key Components |
|-------------|------------|------------------------------|
| Essential | SMBs | Core network, basic security |
| Performance | Mid-market | SD-WAN, HCI, backup |
| Enterprise | Large orgs | Full stack, DR sites |
